**TEST IN
PROD**

TABLE OF CONTENTS

01

TEST IN PROD

I don't always test, but
when I do, I do in prod

02

STAGING ENV

Great, now we can
deploy even later!!

03

TELEPRESENCE

I'm not there, but I have
a presence there!

A NEW FEATURE

CODE

I wrote some code
and some unit tests

TEST

Pushed to the repo
for CI to pick it up

LGTM

My colleagues
reviewed it

DEPLOY

Pressed the merge
button and tada

STAGING ENV

FAIL FAST

CODE

I wrote some code
and some unit tests

TEST

Pushed to the repo
for CI to pick it up

STAGING

Deploy the version to
the staging env

QA

Test the clients against
the staging env

TELE- PRESENCE

FAIL FASTER

CODE

I wrote some code
and some unit tests

QA

Test the clients against
the staging env

telepresence helm install
telepresence connect

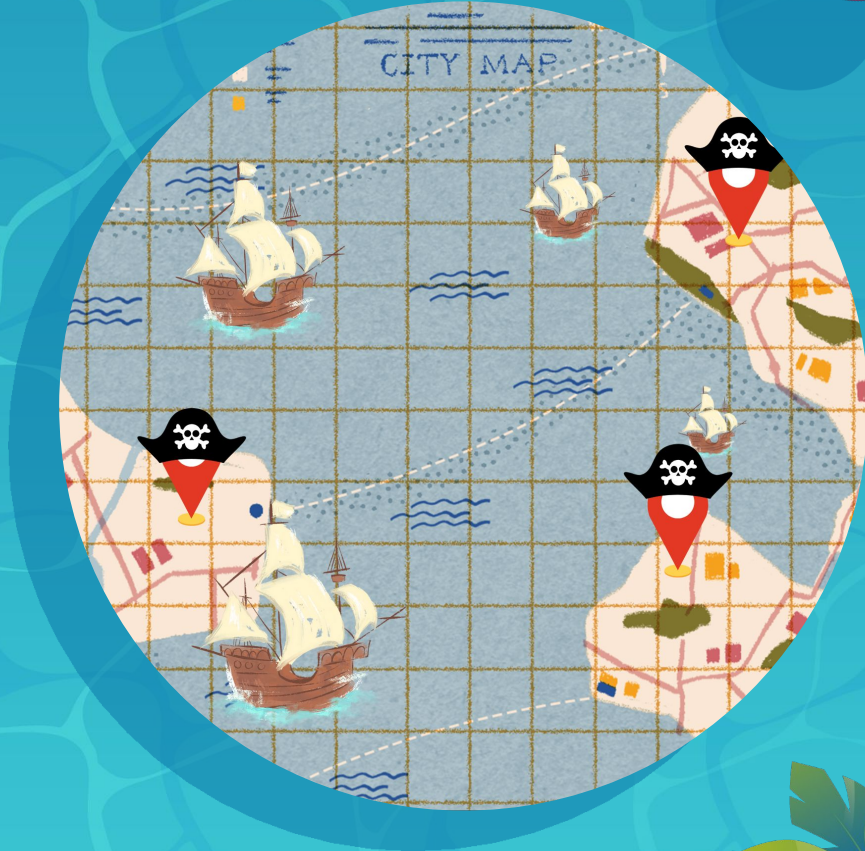

telepresence intercept
my-app
--http-header=all -p 3000

aerabi. medium.com

Accelerate Kubernetes
Development and Testing with
Telepresence

TELEPRESENCE

- Open-source CNCF project
- Created by Ambassador Lab
- Can be used with Ambassador Cloud
- Can intercept globally or personally

“You can accelerate
Kubernetes deployment and
testing with Telepresence.”

—SOMEONE FAMOUS

THANKS!
